

## Evidence & Property Module

The Police Central Evidence & Property Module is the **complete** answer for the Evidence & Property Room. It manages the Inventory of all **seized** and **recovered property**, with complete documentation of each item. Permits **digital photographs** of any item, maintains complete listing and **history of storage locations**. Special documentation of narcotics, firearms and cash. Automatically builds complete indelible **Chain of Custody** that documents all property movements for courtroom documentation. Completely **searchable** data in any field or combination of fields. Optional **BarCode** printer and scanner helps automate **inventory control**. The Module is fully **customized** to your evidence needs. Police Central's robust security insures that authorized people have appropriate access to Evidence information. "Hot Buttons" and DropDown Lists simplify data entry. **Color-coded Banners** indicate the status of each Item, and the List Box displays the **Current Storage Location**. The system maintains a complete **Audit Log** of all activities.

### Case Information Section

The Case Information Section contains all information pertaining to the overall investigation. Case Information contains the Location of the event; and **Case Report Number, Case Type, Search Warrant Number**, assigned officers, dates/times stamp, location, and general **narrative** is entered into this section. All Case Information is fully **searchable**, with **extensive reports**, so Investigators have easy access to case information. Case Type, Case Status, Technician and Property Type are **Drop-Down Lists** that can be easily customized to local needs. Items of Evidence are attached to this Case Information Section. All access is fully secured by Police Central's **security**.

### Property Section

Details of each item of property is maintained in this section. Each Item of Property maintains specific Collection Location details. **Storage Location**, date/time stamp, and a narrative about each item may be entered. As **Property Type** is entered, the system will **request relevant information** that pertains to the Item; i.e. serial numbers, colors, weight, measurement type or other **details relevant to that type of property**. **BarCode** labels can be printed for a single item, or for all items in the Case File -- all with a simple mouseclick. **Digital photos** may be attached to any item in inventory. **Color coded Banners** display instantly the status of each item. Items may be scheduled for **disposal**, and disposal details, including **auction data** and **cash** are maintained in history.

### List of Items & Chain of Custody

As Items are entered into the Case File, Police Central builds a **List of Property** and basic details. **Any number of items** can be added to the List, and a complete **Case Report** can be printed at any time listing all Items. The **Chain of Custody** is generated automatically as property is moved in or from the Evidence Room, and it can be printed at any time for Courtroom purposes. The **Supplemental Section** can be **customized** for information required by your Agency. Sensitive Items like Drugs and Money will demand verification by a second, authorized person. Access including view-only, modify, dispose, etc. is controlled by our security provisions.
